

HOW TO FIND YOUR RING SIZE

For best results, print this page

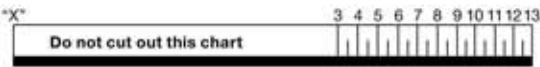

IMPORTANT: When printing please make sure that you do not have page scaling selected. DO NOT SELECT "Shrink oversized pages to fit paper size" or "Expand small pages to fill paper size."

Our ring sizes are consistent with what you'd find at your local jewelry store. For your convenience, we have provided several options for determining accurate ring size.

OPTION 1 - USE FINGER MEASUREMENT TO DETERMINE YOUR RING SIZE

Measure a ring that fits you (or your intended recipient):

Start by wrapping a narrow strip of paper around the knuckle of the appropriate finger. *Pull snugly!* Place a mark on the strip where it meets the end. Lay strip on chart at point "X." Number at the mark is your ring size. If the mark is between two sizes, order the next larger size.

Or, compare your measurement to the chart below:

3	1 11/16	42.8
